

EPSDT AGREEMENT

I, the undersigned participating physician/provider, agree to carry out the key components of a thorough medical well-child examination. The examination/screen must, at a minimum, include:

- a comprehensive health and developmental history (including assessment of both physical and mental health development),
- a comprehensive **unclothed** physical exam,
- appropriate immunizations according to age and health history,
- laboratory tests (including blood lead level assessment appropriate for age and risk factors),
- health education (including anticipatory guidance), and
- treatment and/or referral, if indicated.

In addition, I understand that the performance of these services must be documented, as all medical records pertaining to the EPSDT Program are subject to audit by federal and state agency representatives. Also, I agree to follow up on all referred cases and to document whether or not the initial referral visit was kept by the recipient.
